<TEXT>I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair! I am on disability and find I can "barely" make it from month to month. I had to discontinue the News papers, I had to cut back my phone services, and basically use my wireless for emergencies, and as my 'main' source of communication. Please don't force me to give up my last form of communication. PLEASE KEEP THE USF FAIR.
I am running out of things to give up because of these business' nightmare to the senior citizens. thank you for hearing me out.

Sincerely,

Judith Harzewski
